Pak Desi's boarding house is a boarding house located on Jl. Candi3E No. 214a, Karangbesuki, District. Sukun, Malang City, East Java 65149. This boarding house provides a place to stay for students at affordable prices. Pak Desi's boarding house has more than 200 rooms from and is spread across various cities in Malang. The problems that occur in the Pak Desi boarding house system are the Pak Desi boarding house, the process of serving orders, the orderer has to come to the place, the payment process has to be paid on the spot, the orderer has to come to the place to see the facilities at the boarding house and to extend the contract, members have to come to meet the owner. boarding house. Based on the explanation of these problems, we propose to create a website " BOARDING INFORMATION SYSTEM TO EASIER ADMINISTRATION (CASE STUDY OF DESI KOS)" which is expected to make it easier to manage boarding houses. Researchers used observation and interview methods. This website was tested using the Black Box Testing method, with this method it can be seen whether each process was successful or failed. The conclusions obtained. Through this system, members can easily carry out booking transactions, payments, move rooms and contract extensions and admins can easily carry out managing room data, branches, and managing booking transactions, payments, moving rooms and contract extensions and for owners it can be easier to view transaction reports.
